

La tua digital strategy.  
Mille prospettive  
di information management,  
**una Data Platform.**

**Irion Innovation Day 2019**

# Challenging the future

Alberto Scavino - CEO

## Integrazione:

- Esperienze più ricche
  - Più economiche
  - Più facili, veloci, flessibili
- ... con molte più funzioni

# Data Management

Per rispondere in modo efficace ai diversi use case del business  
**è necessario avere una tecnologia con tutte le funzionalità integrate**

# Modern Data and Analytics Requirements Demand a Convergence of Data Management Capabilities.

Due to changing requirements, modern data and analytics use cases need a **portfolio of capabilities** that cannot be fulfilled by existing, stand-alone products. Data and analytics **leaders must invest in new data management solutions that leverage aggregated and integrated capabilities**

**Gartner**<sup>®</sup>

Non solo data integration, governance, quality, metadata management...  
Tante funzionalità si sovrappongono...

Per rispondere efficacemente a requirements sempre più  
specifici è necessaria una piattaforma con  
**funzionalità integrate**  
guidate da **metadati attivi**.

Data Integration

Data Governance

Automatic Documentation

Data Quality

Metadata Management

Data Conversion

Manual  
Intervention

Data Masking &  
Pseudonymization

Master Data Management

Data Reconciliation

Data Persistence

Data Transformation

Data Profiling

# Moduli

nodi collegati tra loro per creare  
una soluzione di data management

servizi, microservizi e componenti specializzati  
collegati e orchestrati

# Data Fabric

“A data fabric is generally a custom-made design that provides reusable data services, pipelines, semantic tiers or APIs via a combination of data integration approaches in an orchestrated fashion”

**Gartner**<sup>®</sup>

La tua digital strategy.  
Mille prospettive  
di information management,  
**una Data Platform**

Metadata Driven,  
Declarative,  
Codeless,  
Agile.
